PEUGEOT 2008 SUV

PEUGEOT 2008 SUV

SPORTY, PRACTICAL & COMPACT

The award-winning* 2008 SUV encompasses emphatic style with a sporty look and offers practical space with an instinctive drive. Its striking exterior design is complemented with vibrant paint finishes and innovative lifestyle technology ensures maximum convenience and safety.

The modern and efficient range of PureTech petrol and BlueHDi diesel engines combine impressive performance with exceptional fuel economy. 2008 SUV features the PEUGEOT i-Cockpit®, an intuitive interior layout that reinvents the driving experience, and Grip Control® technology which optimises traction in low-grip conditions, adapting to all terrains and weather conditions.

*Winner of the 2017 Auto Express Driver Power Best Small SUV.

SHARP SUV DESIGN

2008 SUV's sharp design and robust character incorporates all the qualities of a compact SUV. Its vertical front face features a fully integrated grille with an embossed pendant design that surrounds the central PEUGEOT lion badge. The horizontal bonnet and rear sports spoiler enhance the sophisticated, sportier look, while front and rear scuff plates* and roof bars provide SUV practicality. Wheel arch extensions* suggest all terrain capabilities and provide more protection for the bodywork.

This powerful, assertive style complemented with a range of vibrant colours ensures real road presence for the 2008 SUV.

*According to version.

SIGNATURE LIGHTING

The 2008 SUV has a strong visual signature, both front and rear, even from 100m away. Two-tone black and chrome headlights* provide definition and structure to the car. Integrated LED daytime running lights add finesse to the design and provide excellent visibility.

Instantly recognisable as a PEUGEOT, the tailgate is framed by full LED rear light clusters with a 3D 'claw' design. This trademark design has become an integral part of PEUGEOT's style identity and features on the entire 2008 SUV range.

*From Allure level.

AN SUV WITH CHARACTER

The 2008 SUV's striking exterior design is complemented with vibrant paint finishes including Ultimate Red. This optional varnish finish truly complements the design and lines of this compact SUV and offers real road presence.

AN INSTINCTIVE DRIVE

The innovative layout in the PEUGEOT i-Cockpit® makes driving intuitive, agile and safe as the ergonomic driving position helps focus your attention on the road ahead. The compact sports steering wheel sits lower than a traditional design and means that your arms are both lower and closer together. This not only reduces driver fatigue but offers more

precise steering and improved manoeuvrability.

The head-up instrument panel allows driver information to be viewed above, rather than through, the steering wheel and is therefore accessed without taking your eyes off the road. In addition, the large multifunction colour touchscreen places all the functionality at your fingertips.

REFINED AND SOPHISTICATED

The 2008 SUV has a sophisticated and sleek interior with a seductively high level of finish.

The lighting ambience has been created with particular care. The inside of the 2008 SUV is bathed in natural light thanks to the generous amount of glass featured in the car's design. This adds to a sense of freedom and space enjoyed by the driver and their passengers. The finely crafted décor works in harmony with ultramodern mood lighting to create a refined and elegant atmosphere. Chic and innovative, the PEUGEOT LED track* provides ambient lighting from the laser cut headlining while the panoramic glass roof** is equipped with high-tech light guides. The head-up instrument panel features LED dial surrounds* which come on automatically as soon as the side lights are switched on, adding an extra touch of luxury to the interior lighting ambience.

*Available from Allure level
**Optional on Allure, standard on GT Line

THE CONNECTED SUV

Connected services and applications can be accessed via the 7" multifunction colour touchscreen, putting all functionality at your fingertips. This is the conduit to all the audio and communications equipment, including DAB Digital radio and Bluetooth® connectivity.

CONNECTED 3D NAVIGATION

Connected 3D Satellite Navigation* includes European mapping, 3D city mapping and voice recognition (for radio, navigation and telephone functions).

When ordered in conjunction with PEUGEOT Connect SOS & Assistance* there is a three year subscription and the system has an automatic and permanent connection to on-line navigation services (in partnership with TomTom®). This can also be achieved through tethering a compatible smartphone (data charges may apply).

Key features of PEUGEOT Connect include:

TomTom® Traffic: Real-time updates on traffic conditions (traffic jams, roadworks) and suggested alternative routes.

Local Weather: Displays forecasted weather conditions along the route.

Fuel Stations: Displays nearby fuel stations and pricing.

Local search: Access address and contact detail information for a point of interest.

PEUGEOT CONNECT SOS

PEUGEOT Connect SOS** is technology that could prove vital in an emergency. Automatic emergency call: if the airbags inflate or the seat belt pre-tensioners are triggered, the vehicle automatically makes an emergency call on behalf of the driver. PEUGEOT Connect SOS* then locates the vehicle, establishes telephone communication with its occupants and

arranges for the appropriate emergency service to be dispatched. Manual emergency call: whether the victim or the witness of an emergency situation, the driver can call PEUGEOT Connect SOS* quickly by pressing the SOS button located on the dashboard (and holding for 3 seconds).

MIRROR SCREEN®

PEUGEOT Mirror Screen® brings you Apple CarPlay™ and Android Auto functionality, providing voice activation for the driver, meaning compatible and safe applications, such as Google Maps and call features can be activated and used without removing your hands from the wheel. Compatible with an iPhone 5 or above, calls and text messages can be dictated using Apple CarPlay™ functionality, providing voice activation for the driver, meaning compatible and safe applications such as Apple Maps, Spotify and call features, can be activated and used without the need to remove your hands from the wheel.

Android Auto has also been designed with safety in mind. With touchscreen interface, and easy-to-use voice actions, it's designed to minimise distraction meaning you stay focused on the road ahead. Features include :

Google Maps with free voice-guided navigation, live traffic information and lane guidance.

Voice activation accessing hundreds of available voice commands, making it easy to find your next destination, change and select music, or reply to a message.

*Optional on Active and Allure models at additional cost; standard on GT Line. Additional terms and conditions apply to connected services, including customer acceptance of location sharing prior to activation.

**Terms & Conditions apply.

The GT Line badge level on 2008 SUV features distinctive sports styling. From the 17" Brilliant Black alloy wheels, to the black chrome radiator grille with embossed pendant design, to the gloss black door mirrors and black roof bars – this is a dynamic and compact SUV.

The horizontal bonnet culminates at the front in a vertical integrated radiator grille, with gloss black surround and contrasting red PEUGEOT lettering. GT Line badging appears on the front wings and tailgate with an exhaust finisher integrated into the rear scuff plate. The package is completed with a panoramic glass roof with electric blind and ambient lighting.

GT LINE
ASSERTIVE

SPORTS STYLING

GT LINE

UNIQUE DRIVING SENSATION

The sporty feel of the 2008 SUV GT Line exterior continues in the cabin with aluminium door sills with PEUGEOT lettering. The seats are finished in premium GT Line trim and the sports theme continues with gloss black door handles. The PEUGEOT i-Cockpit® with compact sports steering wheel in perforated leather with contrast stitching; head-up instrument panel with red LED dial surrounds; and touchscreen with red colour screen all

deliver a driving experience that's intuitive, agile and safe with highly accurate road holding. The 2008 SUV GT Line comes with a wide range of technologies to heighten these sensations including Grip Control®; Connected 3D Satellite Navigation (including voice control and TomTom Live updates) with PEUGEOT Connect SOS & Assistance*; •Colour reversing camera; Connected Smartphone technology; Active City Brake^ and Park Assist^.

^Optional at additional cost.

*Additional terms & conditions apply to connected services, including customer acceptance of location sharing prior to activation.

ADVENTURE HAS
NO LIMITS

DISCOVER NEW HORIZONS

Driving a PEUGEOT 2008 SUV makes you want to go on an adventure. The innovative layout of the PEUGEOT i-Cockpit® offers an intuitive, safe and agile drive; and the connected lifestyle technology and superb road holding means every journey will be a pleasure in the 2008 SUV.

THE VERSATILE SUV

Grip Control® is an adapted traction control system which responds to most terrains and weather conditions. It acts on the front wheels by adjusting wheel spin and torque to optimise traction in low-grip conditions.

Versatile and adaptable, this system has control built in. The Grip Control® dial located on the centre console lets you choose the appropriate mode for the surface you encounter : Standard, Mud, Snow, Sand, ESP Off. Coupled with 17" alloy wheels and Mud & Snow tyres, it is also compatible with the EAT6 automatic gearbox. Grip Control® uses electronic components that are already installed in the car meaning that it adds no extra weight and therefore no excessive fuel consumption, unlike a traditional 4x4.

Grip Control® is standard from Allure level, excluding 1.2L PureTech 82.

GRIP CONTROL®

Grip Control® optimises traction in low-grip conditions. It adapts to different terrain by acting on the front wheels, using electronic components already present on the vehicle meaning that it adds no extra weight and therefore no excessive fuel consumption, unlike a traditional 4x4. Standard from Allure* level, on both manual and automatic versions, it is coupled with 17" alloy wheels.

The Grip Control® dial located on the centre console offers five available modes :

• **Standard :**

- Suitable for normal road conditions.
- Low spin rate.

• **Snow :**

- Recommended in deep snow or on a steep slope.
- Adapts the spin of each front wheel according to the grip available in order.
- Automatically changes back to Standard mode at 30 mph.

• **Mud :**

- This "all terrain" mode is suitable for muddy or slippery ground conditions.
- Allows a lot of spin on the wheel with the least grip to allow mud to be cleared and grip restored.
- At the same time, it transmits the maximum available torque to the wheel with the most grip.
- This action is similar to a Limited Slip Differential.
- Automatically changes back to Standard mode at 50 mph.

• **Sand:**

- Suitable for loose ground.
- Spins the front wheels simultaneously, allowing the vehicle to move and reducing the risk of being trapped in sand. Automatically changes back to Standard mode at 70 mph.

• **ESP Off :**

- Disconnects the ESP and Grip Control® systems.
- Gives complete control to the driver.
- Automatically changes back to Standard mode at 30 mph.

*Not available on the 1.2L PureTech 82 engine.

SAFETY FEATURES

The 2008 SUV offers a range of safety equipment to keep you and your passengers safe.

Active City Brake*

Active City Brake technology makes it possible to avoid an accident or reduce its seriousness if the driver fails to react. It works in urban conditions at speeds of less than 20 mph. A short range sensor is fitted to the top of the windscreen and can detect other vehicles that are driving in the same direction or stationary. This will automatically trigger an emergency brake to stop the vehicle and avoid a collision entirely or limit the consequences of an accident by reducing the speed of impact.

*Optional from Active level.

Airbags

The 2008 SUV includes six airbags as standard, offering extra protection for you and your passengers if you're involved in an accident :

- Two front airbags to protect the head and thorax of the driver and front passenger in the event of a frontal impact.
- Two front side airbags to protect the driver and front passenger in the event of a side impact.
- Two front and rear curtain airbags to protect the heads of the front and rear occupants.

In addition, front passenger seat airbag deactivation is available across the 2008 SUV range, so that baby can travel in the front seat.

ESP

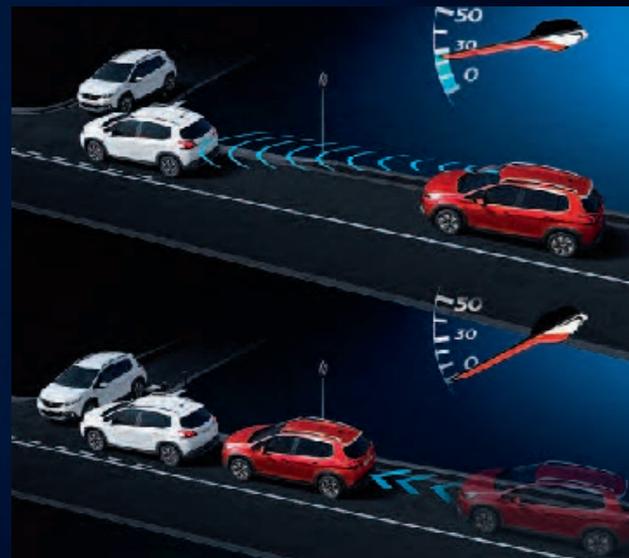

All versions of the 2008 SUV have a high level of active safety and are equipped with ESP (Electronic Stability Control) as standard. This comprises Traction Control (ASR), Stability Control (CDS), Emergency Brake Assist (EBA), Anti-wheel lock braking system (ABS) and Electronic Brake Force Distribution (EBFD).

ESP is combined with Hill Assist, which briefly immobilises the vehicle, giving you time to move your foot from brake to accelerator when starting the car on a slope.

CORNERING ASSIST FOG LIGHTS*

In low beam or high beam, this function allows the front fog lights to illuminate the inside of a bend when the vehicle speed is below 25 mph. This gives you extra visibility when driving in town, on winding country roads, at junctions or when you are parking.

*Standard from Allure level.

Park Assist* and colour reversing camera*

The colour reversing camera automatically activates when reverse gear is engaged and allows the driver to view the area behind the vehicle while the manoeuvre is taking place. The reversing camera comes with rear parking aid as standard but can also be ordered with Park Assist for added safety and convenience. The Park Assist system assesses the size of space available to ensure that it fits the dimensions of your vehicle. Ultrasonic sensors and steering management take over to manoeuvre in and out of the parking space for you. Acceleration, braking, gear changes and use of the clutch in a manual transmission are left in your control. During entry and exit of the parking space, the system provides you with visual and audio information to ensure your safety.

*Available according to version.

PEUGEOT Connect SOS*

PEUGEOT Connect SOS is now in use in most major European countries, including the UK, and is technology that could prove vital in an emergency.

Automatic emergency call: if the airbags inflate or the seat belt pretensioners are triggered, the vehicle automatically makes an emergency call on behalf of the driver. PEUGEOT Connect SOS then locates the vehicle, establishes telephone communication with its occupants and arranges for the appropriate emergency service to be dispatched.

Manual emergency call: whether the victim or the witness of an emergency situation, the driver can call PEUGEOT Connect SOS quickly by pressing the SOS button located on the dashboard (and holding for 3 seconds).

*PEUGEOT Connect SOS is optional according to version and subject to acceptance when ordering the vehicle. Terms and conditions apply.

DRIVING EXPERIENCE

Suspension

High performance, versatile and efficient PureTech petrol and BlueHDi diesel engines offer a responsive driving experience on 2008 SUV without compromising on fun and enjoyment. The compact steering wheel in the PEUGEOT i-Cockpit® is linked to a specific suspension system, which is adapted according to engine. The weight-optimised drivetrain combines simplicity and reactivity, offering the perfect balance of comfort and road holding to guarantee real driving pleasure.

Automatic Gearbox (EAT6)

The 2008 SUV 1.2L PureTech 110 EAT6 S&S is equipped with a 6 speed EAT6 (Efficient Automatic Transmission) automatic gearbox, which optimises fuel consumption and enhances driving experience. This new gearbox uses quickshift technology allowing for faster gear changes and is the new benchmark in terms of driving enjoyment. Its capacity for energy efficiency is almost equivalent to that of a manual gearbox with reduced friction and lockable converters in every section to prevent slippage. It has been designed to significantly reduce CO₂ emissions and is comparable with the equivalent manual, making it extremely well positioned in both drivability and fuel consumption.

NETWORK AND SERVICES

When you choose PEUGEOT, you have the reassurance of knowing that your vehicle has been designed and built to give you years of worry free motoring. As a PEUGEOT owner, you can also rely on the customer care services of your dealer. This will ensure that you're talking to a specialist who'll listen to you, understand your problems and respond efficiently - someone who also has the expertise to maintain your PEUGEOT correctly, using trained technicians, PEUGEOT diagnostic equipment and PEUGEOT original parts.

FOR YOUR PEACE OF MIND

MANUFACTURER WARRANTY

Any PEUGEOT 2008 SUV first registered in the UK and purchased from a UK PEUGEOT Dealer will benefit from a 2 year unlimited mileage manufacturer warranty and a free optional additional year of warranty (up to 60,000 miles) provided by the PEUGEOT Dealer Network. At the end of the 3 year Warranty period (or after 60,000 miles) you have the option to purchase a PEUGEOT Platinum Extended Warranty. Our cars also come with a 12 year Anti-Perforation and 3 year Paint Warranty (6 and 2 years on vans). For full terms and conditions on all of these, please contact your PEUGEOT Dealer.

PEUGEOT ASSISTANCE

All new PEUGEOT vehicles come with 12 months of PEUGEOT Assistance - our breakdown assistance service. This covers all incidents involving vehicle based faults for you and anyone else driving your car with your permission. It is available 24 hours a day, 365 days a year. PEUGEOT Assistance includes European cover, homestart, roadside assistance, vehicle recovery and a free replacement car or accommodation if required. It can be extended for a further 12 months, or 24 months, and to protect you against non-vehicle faults (such as punctures) at specially discounted rates, by calling 0870 752 7050.

PEUGEOT SERVICE CARE

Please refer to the maintenance book for details of the service intervals and the specifics of vehicles operating in arduous conditions.

FINANCE - LET THE SPECIALISTS HELP

PSA Finance UK Limited offer a range of flexible finance plans to make owning a new PEUGEOT easy. As specialists, we will provide choice, convenience and flexibility. Written quotations are available on request from PSA Finance UK Limited, Quadrant House, Princess Way, Redhill, RH1 1QA. Over 18s only, a guarantee may be required.

PEUGEOT INSURANCE

Designed for PEUGEOT to offer tailored cover at a competitive price. In the event of an accident, a PEUGEOT Approved Accident Repair Centre will repair your car, using PEUGEOT original parts and offer a courtesy car (subject to availability). Call PEUGEOT Insurance for a quote on 0370 024 1107 (Calls may be recorded for training and quality purposes). PEUGEOT Insurance is underwritten by U K Insurance Limited.

PEUGEOT ACCESSORIES

PEUGEOT Accessories are designed specifically for each model meaning no compromises on fit or function. In addition they are tested to a rigorous standard for complete confidence and peace of mind.

PEUGEOT AND THE ENVIRONMENT

Our website has details of PEUGEOT's environmental and recycling policies.
